NEWS AND COMMENT.

Lord Kitchener reports that three agents of the peace commission were taken as prisoners to Gen. De Wet's camp and that one, a British subject, was flogged and then shot. The other two were burned, and they were flogged by Gen. De Wet's orders. This brief report of the occurrence has caused deep indignation in London, and the newspapers generally take the position that the incident shows efforts at conciliation to be useless.

W. E. Martin is under arrest at Fayetteville, Tenn., charged with mailing the mails in an attempt to extort \$500 from Jas. Cunningham, a wealthy farmer. A letter was sent to Cunningham threatening that his house and farm buildings would be burned if he did not send the money.

A shipment of 3,026,000 bushels of coal, carried by 100 boats, thirty-five barges and eighteen floats, was started from Pittsburgh Sunday. Another 2,000,000 bushels will get under way today, making 10,000,000 bushels on this run. Nearly all the coal is for Cincinnati and Louisville.

Col. Winfield T. Davis was inaugurated Governor of Indiana yesterday. The occasion was marked by a big civil and military display.

The Kentucky electors chose Robert L. Owen as messenger to carry the certificate of the state's vote for president to Washington.

King Oscar of Sweden has recovered his health and will resume the reins of government in a few days.

Captain C. W. Kemp, arrested at Mobile for alleged bribery, will be tried by the civil authorities.

Central of New Jersey railroad stock was bought by the Morgan syndicate at the rate of \$160 a share.

The trial of the alleged murderers of Jennie Pennington, the mill girl, was begun at Paterson, N. J.

A bill introduced in the Tennessee legislature provides the death penalty for kidnapping.

St. Louis has failed to produce a man or woman who has lived in three centuries.

THOMAS REMAINS.

CORONER PHILIPS THINKS THERE SHOULD BE AN INQUEST.

The remains of Henry Thomas, colored, who died in the railroad hospital here yesterday from a gunshot wound received at Ripley, Tenn., will probably be buried here.

Coroner Phelps is at a loss to know what to do in such cases. The man who shot Thomas may be guilty of murder, and it is clear that an inquest should be held by some one, but the coroner has no way to get the witnesses here, and the railroad company does not carry the corpses back in such cases, for an inquest.

TICKET AGENT RESIGNS.

M. G. B. THOMAS BEING CHECKED OUT TODAY.

Mr. G. B. Thomas, day ticket agent at the Illinois Central depot, has resigned his position, and the auditor is here today checking him out. His successor will probably be Mr. Sheppard, who has been operator at the scale office. Mr. Thomas will probably return to his home in Russellville.

K. O. P. ELECTION.

The Knights of Honor, Raphael lodge, met last night and elected the following officers:

Dictator, P. J. Beckinbach; vice dictator, R. W. Martin; assistant dictator, J. Henry Smith; chaplain, J. K. Martin; reporter, E. G. Boone; E. rep., L. W. Howell; G. rep., R. C. Utterback; guardian, John Lutenburg; trustees, D. A. Yeiser, J. H. Ashcraft and Charles E. Richardson.

AN OLD STORY

It's Again Said That Taylor and Finley Will Be Brought Back to Kentucky.

REASON TO DOUBT STORY

Now Conceded Quay Will This Afternoon Win Easily the Pennsylvania Senatorial Fight.

BANK ROBBERY IN TENNESSEE SUNDAY

Lexington, Jan. 15.—It is rumored here that a detective has gone to Indianapolis with a requisition for Messrs. Taylor and Finley, alleged fugitives from this state.

Frankfort, Jan. 15.—It is denied here that a requisition has been issued for Messrs. Taylor and Finley. The latter is from official circles.

Indianapolis, Jan. 15.—Gov. Durbin refuses to say what action he would take if a requisition for Messrs. Taylor and Finley was presented to him. He also declined to say whether or not such a paper had been presented to him.

Harrisburg, Pa., Jan. 15.—It is conceded that Matthew Quay has votes enough to be elected United States senator this afternoon. The two houses of the legislature at 3 o'clock will take their first vote on the contest at the hour named. The first ballot, it is foolishly expected, will solve and end the great contest. Up until today the opposition had expected to develop enough to defeat Quay, but expected surprises are for the senator's re-election and against his defeat. The Democrats are likely to vote for J. M. Guffy for the high office. Several legislators are home ill.

Jamestown, Tenn., Jan. 15.—The People's bank of Livingston, Tenn., was robbed of \$5,000 Sunday night. There is no clue to the depredators, who came and departed without leaving any suspicion.

Wichita, Kas., Jan. 15.—The quarantine at the county jail, made necessary by smallpox appearing among the prisoners, has been raised and Mrs. V. J. Jones, the W. C. T. U. member who was arrested for smashing up the furniture of a saloon, has been released on bond, which she at first refused to give. She says she will resume her smashing again immediately and continue it until the laws are obeyed and executed. Mrs. Nation's husband sustains her in her action and declaration.

New Orleans, Jan. 15.—The two Holtheuse girls and infant sister missing since Sunday have probably been kidnapped.

Anniston, Ala., Jan. 15.—E. K. Shaw killed his wife by cutting her throat. He then attempted suicide, but is still alive. The two had been arrested for swindling and agreed to die together.

Raleigh, N. C., Jan. 15.—The Democrats assumed control of the state office today after being out six years.

INSPECTED THE HEATER.
Mr. A. J. Anderson, of the Illinois Central, was in the city today inspecting the heating apparatus at the new depot, which has lately been packed with asbestos.

MRS. MARTIN SMITH HURT.
Mrs. Martin Smith fell last evening at her home, at Seventh and Clay streets, and cut a painful gash in her head. Dr. Boyd using several stitches to close it.

FORCED TO OPEN SAFE.
Versailles, O., Jan. 15.—Five masked robbers broke in the door of the home of Henry Stroker, six miles north, late Saturday night, bound and gagged Stroker, his wife and son, and forced Stroker to open his safe and give them \$850. The thieves stole a team from the barn and escaped.

Some time this week \$500,000 will be paid over to Robert Goellet, the only son of the late Ogden Goellet, who came of age last Wednesday.

Jackson, Tenn., has a sensational divorce suit. Phyllis Hanebush sues her husband, Charles H., for brutal treatment.

OVER SIXTY KILLED.
Tacoma, Wash., Jan. 15.—Oriental armies say an explosion in the powder works at Heng Chow, China, December 20, killed between 60 and 70 persons. A portion of the powder works and scores of houses were destroyed. The accident is attributed to recklessness.

DEATH AT PRINCETON.
Mr. James Hubbard, aged 65, father of Mr. Ed. Hubbard, the deputy revenue collector, died at Princeton a day or two ago. He was also an uncle of Mr. L. C. Perry, of the city.

MARRIED AT METROPOLIS.
Mr. Thomas B. Williams and Miss Emma Marshall, of Gilbertville, Ky., were married at Metropolis Sunday and were in the city today en route home.

DEATH OF NO KNIFE.
Pender, Neb., Jan. 15.—No knife, the last chief of the Omaha Indian tribe, is dead at the home of his son, Matthew Tyndale, on the reservation, aged 115 years.

The man who created the Wheeling stoga has just died at Wheeling. W. Va., aged 89 years and wealthy.

Insurance Turtles.
Six turtles, each weighing from 400 to 450 pounds, are said to be about 250 years old, were recently shipped to Walter Rothschild, M. P., for his private zoological garden in London. They were captured in the Albenarle Islands, South sea. Mr. Rothschild now owns eighty-four tortoises of various ages and sizes. He has been collecting them for years from all over the globe. En route the turtles received a whole cabbage a day for food.

Policeman dies a licking.
They have bright police, in Kansas. At Stuen Robert Bell went to the town marshal and told him that Steve Rieisterer was hunting for him (Bell) with the view of giving him a licking. When the men were still talking Rieisterer came up and knocked Bell down and administered the licking before the officer could interfere. Which shows that often we wot about knowing what we are wotting.

BEARING ON OTHER CASES.

BELIEVED SUPREME COURT DECISION IN NEELY CASE FORECASTS PUERTO RICAN DECISIONS.

Washington, Jan. 14.—The unanimous opinion of the supreme court, delivered by Justice Harlan, holding the law passed last season for the extradition of such offenders as Neely, to be constitutional, because in accordance with the treaty of peace, is regarded as having a most important bearing upon the questions now before the supreme court, which involve the question whether the constitution extends to annexed territories. If congress can legislate for Cuba, foreign territory, it seems that it should be able to legislate for annexed territory. In other words, the first impression made by the decision is that the United States has all the rights of a nation, and consequently holds and governs territory colonies in the way that seems most advisable.

There are those, however, who maintain that the question of the extension of the constitution is not involved in the Neely case. But then if that be so the Neely decision would seem to show that the court believes that the powers of the United States as a nation are broad.

LOCKED IN.

THE TRAMPS BROKE INTO THE CAR, BUT COULD NOT BREAK OUT.

Officer Tom Orr this morning received a telegram to meet freight train No. 153 and arrest two tramps who were locked up in a box car.

He met the train and arrested the men, who gave the names of John Phelan and Ben. Boyd.

Conductor Davis stated that they broke open the car, which was loaded with flour, to steal a ride from Henderson to Paducah. Their presence in the car was discovered, and they were locked in.

When the car was opened here they had little to say, and were locked up pending the issuance of a warrant for breaking the seal of a freight car.

NOTHING DEFINITE.

IF ANY NEGRO WAS HUNG, HE IS STILL THERE.

Nothing else has developed in regard to the negro alleged to have been found hanging to the limb of a tree down about the month of Perkins' crew.

All the information received here has been hearsay, and no one has yet showed up who professes to have seen the body. The Metropolis papers of yesterday denounce the story as a hoax, and the officers here think there is nothing in it.

The Metropolis Herald says the joke was started by "Fox" Davis, a baseball player, who created quite a sensation in Metropolis with his yarn, and is now enjoying a good laugh over it.

GIRL STOOD OFF MEN.

Lexington, Ky., Jan. 15.—Runkin Clemens, a farmer, six miles from town, was assaulted and robbed at the door of his home Saturday night and he will probably die. His daughter-in-law barricaded the house and stood the burglars off. Clemens, a miser, owns 1,500 acres of land and has much other wealth. His son, Robert, committed suicide because of the drugging he was forced to do, and one of his daughters committed suicide because she married against her father's will and was disowned.

GOELET DODGED HIS TAXES.

New York, Jan. 15.—The report of the appraiser appointed by the Surrogate to establish the valuation of Ogden Goellet's property, has been made public and shows that it was worth nearly \$7,000,000, instead of being a trifle over \$100,000, the estimate furnished by the family.

The full value of the personal estate is placed at \$6,541,315. Items allowed by the executors and for administering the estate reduce the personality to \$1,669,483. While the value of the real estate has never been determined, it is said to exceed \$455,000,000. The executors estimated it as "over \$5,000,000."

Some time this week \$500,000 will be paid over to Robert Goellet, the only son of the late Ogden Goellet, who came of age last Wednesday.

IT IS A MYSTERY

A Burglar Visits County Clerk Charles Graham's Office In the Night.

GOES THRO' EVERYTHING

Attempted to Break Into the Big Vault, But Was Unsuccessful—Object Only Surmised.

THE TRACKS INDICATE A WHITE MAN

The most mysterious burglary that has occurred in Paducah since the vault in the circuit clerk's office was rifled several years ago and all the indictments stolen, was committed last night.

County Clerk Graham's office, in the southeast corner of the court house, was visited and every paper in the office examined and left on the floor.

When Deputy County Clerk Smiley opened up about 7 o'clock he was amazed at the spectacle that greeted him.

A heavy drawer, box and receptacle outside the vault had been thoroughly ransacked, and the papers were opened, inspected and consigned in the middle of the floor, where they lay in a most confusing mass.

Entrance to the office was gained through one of the windows on the east side of the office. Not being fastened down, it was comparatively an easy matter to hold it and climb in.

A systematic search through the papers was then instituted, with what object is not known.

An effort was made to gain entrance to the big vault, but without success. A key was broken off in the lock, and Deputy Smiley's scissors were ruined in a fruitless attempt to manipulate the lock.

No papers, so far as is known, were either stolen or destroyed, and it is believed that the would-be thief was unsuccessful in his quest, whatever it was. He was evidently in search of some paper or record of importance to himself and did not seem disposed to molest any of the things to which he had access.

County Clerk Graham would prefer, however, that whenever burglars visit his office hereafter, they leave things more orderly.

Tracks were found outside the window, where the marauder jumped from it, and they indicate by size and shape that the man was white.

This far there is no clue to the perpetrator, and the affair bids fair to remain as much a mystery as the almost forgotten robbery of the safe in the circuit clerk's office.

AGAIN LEFT OPEN.

GREEN'S COUSIN BECAME MURDERED IN HIS EVIDENCE.

The case against Given Greer, colored, for disturbing a colored congregation, was again left open by Judge Sanders this morning and the defendant was released on his own recognizance.

The case was left open that Greer could find the boy to whom he gave two fire crackers.

He said yesterday that he didn't know the boy's name, but in the meantime found it was his cousin, a small boy who was in court today and said Given gave him two packs of fire crackers Sunday a week ago, but it was before dark, while Given didn't claim to have had but two, and these he gave away about 5 p. m. The defendant looked very much distressed at the way his accommodating cousin overdid it, and was given a chance to find a better witness by tomorrow.

MORE EVIDENCE.

IT MAY BE THAT JAS. HODGE DIDN'T "FROG" DE ERICK.

The case against James Hodge, colored, fined \$50 and costs yesterday for throwing a rock at Mr. Tom Boswell, and warranted for false swearing, having sworn he did not throw it, is becoming of considerable interest in police circles.

A young man named Green swore positively that Hodge was the one who threw the rock, as he never lost sight of him from the time he threw until overtaken and caught. He was further identified by a long rip in his coat.

Marshall Collins has received information that two gentlemen who saw the whole thing will swear that Hodge was not the one who threw the brick, and Judge Sanders has issued instructions to have them as witnesses tomorrow in the false swearing case.

CIRCUIT COURT.

THE MORRIS CASE FINISHED THIS AFTERNOON.

The case of Mrs. Sarah E. Richie against the Sun Life Insurance company, for \$150 on a policy on her son, was finished this afternoon, argued and given to the jury.

The suits of Harry and Nellie Braden and Harry Correll, against Terrell Brothers, for money alleged to be due as salary, are set for the 21st day of the term.

Messrs. W. S. Richie, Leo Potter and D. P. Leigh were excused from the jury, and Messrs. R. M. Allen, W. L. Reed and J. A. Callaway substituted.

Owing to the trial of another case, the Tote Dennis case was not tried in the circuit court this morning. It will probably be tried tomorrow.

CREMATION WITH LIQUID AIR.

Chicago, Jan. 15.—After a protracted series of experiments, a Chicago physician is said to have succeeded in perfecting a method by which human bodies may be cremated with the use of liquid air at a cost which is nominal in comparison with the present expensive methods. The method involves the treatment of the body to be cremated with a chemical substance and exposure to a current of electricity in liquid air. The combustion is said to be perfect, practically no smoke or odor resulting.

TUESDAY, JAN. 15, 1901.

Senator Hoar was unanimously re-nominated for re-election by the Republicans of the Massachusetts legislature. The Democrats nominated Richard Olney.

The general belief is that the emperor of Austria, who is expected to visit the United States, will be accompanied by his wife, the empress.

How far into the future must come when, after living 100 years, a man arrives at the age of 101 and finds that he has not yet reached the age of 100.

The Philippines evidently have their attractions and afford some business openings. One hundred and thirty of the enlisted men and twenty of the volunteer officers of the Thirty-seventh volunteer infantry, which sailed from Manila for home on the 10th, preferred to take their discharge and remain on the islands, where most of the men have secured positions paying \$75 per month, while the officers have details connected with government business.

DEMOCRATIC MUNICIPAL RULE.

One of the New York papers has just published a comparative statement of the increased cost within three years of municipal government in New York city. The average annual expenditures of the city are shown to have gone up from \$70,000,000 in 1898 to \$85,000,000, the estimate for the present year. What New York is getting for the annual expenditure of this enormous sum is a succession of Tammany scandals, a system of horrible politics in which the chief actor is protected vice. It is asserted on good authority that the gambling houses of New York pay \$1,700,000 a year to be let alone. Stories of brutality in the city's largest hospital have multiplied of late. Leading members of the Tammany organization are accused of taking an immense toll from the ranks of crime of all kinds. Their subordination are in the same line of business according to their opportunities. Public improvements cost far more than is paid in private contracts. Assessed valuations are subject to secret bribery. The developments are called astounding, but are not more surprising than the toleration of such villainous extravagance by a city of 600,000 voters.

GREATEST IMPROVEMENT.

THOUSANDS OF SCHOOL CHILDREN IN CUBA AGAINST A FEW THOUSAND YEARS AGO.

New York, Jan. 15.—A. E. Frye, of Highland, Cal., who has just returned from Havana, where he spent two years as superintendent of public schools in Cuba, said last night: "There has been a great improvement in the condition of schools in Cuba. While there were not more than 10,000 pupils in 1897, there were 142,000 in May, 1900. The highest number ever registered before the war was 234,000, and the attendance never exceeded 17,000. There were no public schools in reality, under Spanish rule, and the school property had little or no value. Recently General Wood got the idea that many of the schools reported by me, and for which money was being drawn, did not exist. He gathered this by information submitted by informants. In my report I reported the number of pupils, school rooms, while the military officers counted only the schoolhouses, thus confounding matter with fact. But I soon explained the facts to the satisfaction of Gov. Wood. "Under the system I have inaugurated no fraud is possible in the schools of Cuba. Under the old system there were ninety-four professors under pay in the University of Havana, where there were only 935 students. "Mr. Frye says that the Cuban children are very apt pupils and learn with great rapidity.

A negro and a white man committed an atrocious crime at Gorham, Me. A farmer was killed and his aged mother brutally assaulted. The motive was robbery, which was accomplished. The negro is believed to be under arrest.

RELIGION OF THE RULERS.

THEY ARE OF VARIOUS FAITHS.

THOUGH MOSTLY CATHOLICS.

OLICS.

The religion of the head of a state or nation is usually the predominant belief of the nation itself.

Queen Victoria, as devout a Christian as the humblest member of the Church of England, is a great lover of hymns.

Wilhelm, the young and energetic German emperor, is a sincerely moral and religious man. He is a Protestant, believing in the tenets of Luther.

The husband of Queen Wilhelmina of Holland will surely be a Protestant, for she is herself the best and most regular worshiper in the Dutch church. Moreover, the law of her land will not permit her to marry a Catholic.

King Christian of Denmark, though personally inclined to the Lutheran church, holds most liberal religious views regarding his people and members of his family.

King Oscar II of Sweden is of the Protestant faith, a practical Christian, and an ardent student of the Bible.

Switzerland's president, Col. Edward Miller, is a Protestant and a member of the Church of North. He worships simply as a private citizen.

President Kruger, of the South African republic—if he can be called the president—is of course a member of the Dutch Protestant church.

The Emperor Francis Joseph, of Austria, is a devout Catholic.

M. Loubet, the most democratic president of France has known, is a Catholic.

King Victor Emmanuel, of Italy, is a Roman Catholic.

Charles I, of Italy, is a Roman Catholic.

Alfonso, the king of Spain, is a Catholic, his mother, the queen regent, attends mass every Sunday.

Leopold, king of the Belgians, is a Catholic.

The czar of Russia, the only layman of the Orthodox Russian church who is allowed to step into an altar, has his private chapel in both St. Petersburg and Moscow.

King George of Greece and Queen Olga are both devotees of the Orthodox Greek church. Their private chapel in Athens is one of the prettiest in Greece.

Nicholas, ruler of Montenegro, also lives according to the teachings of the Orthodox Greek church.

King Carl of Romania and his queen belong to the same church, as does Prince Ferdinand of Bulgaria.

King Alexander of Serbia is of the Orthodox Greek faith.

The Sultan of Turkey is an extreme Mohammedan.

The Khedive of Egypt and all his family are also of the Mohammedan faith.

The shah of Persia is a Mohammedan.

The sultan of Morocco, a young man only 18 years old, is of the Mohammedan faith.

Mehmed II, king of Abyssinia, goes to his native church every day in the year. Christianity was introduced into his country in the Fourth century.

The king of Siam is a Buddhist, and was for some time a priest.

The emperor and empress of Japan are disciples of Shintoism, the faith of their ancestors for centuries back.

Among monarchs the emperor of China is the greatest martyr to religious ceremonies. Altogether he spends more than 150 days a year in religious duties.

President McKinley is in every sense of the word a Christian—regularly attending service at the Methodist Episcopal church.

The presidents of the South and Central American republics are nearly all Catholics, but only a few of them attend divine service.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney Co. Testimonials free.

Sold by druggists, 75c. per bottle. Hall's Family Pills are the best.

WIRELESS TELEGRAPHY.

INTERESTING EXPERIMENTS WHICH SHOW THE SCIENCE IS GROWING.

Consul Roosevelt at Brussels reports to the state department that a station has been established at La Panne, Belgium, for the exchange of wireless telegraphic messages between Belgium and England. La Panne was selected on account of its being the point of the Belgium littoral nearest the English coast and a mast of the Marconi system 130 feet high was erected there. The Dover Ostend mail boat Princess Clementine was fitted up with temporary apparatus for use in experimental trials. An additional mast was affixed to the foremast of this vessel, increasing its original height about sixty feet. From that extremity the telegraphic waves are projected toward each coast. A special room has been fitted up on the steamer for the instruments and from that room the cable is carried to the top of the extended mast. It is constantly expected to maintain communication between ship and shore for at least thirty miles, which is about half way across. With stations at La Panne and Dover those on board the vessel will be able to keep in touch with the land during the entire trip across.

Recent experiments showed that telegrams arrived with the same regularity and celerity as ordinary telegrams. When about forty miles from Ostend the captain was able to telegraph the station master at Ostend the probability of his arrival. Various telegrams were sent from the vessel to Ostend, Brussels, Dover and London, and the reception of each message was acknowledged promptly. Subsequently, the consul adds, a message was sent from the vessel to the station at Dover coast, Essex, a distance of nearly ninety miles, including many miles of cliffs and sea.

THE PRESIDENT'S TERM.

In suggesting two reforms in the electoral system—one providing for extending the presidential term and the other insuring that the presidential candidate with the largest popular vote shall get the office—President Cleveland touches on problems which very likely will have to be solved during the century.

The New York Sun, which adds: "As the new system of government grows in the extent of its operations and as the burdens resting upon the government become more and more cumbersome the need for such changes will increase. Already, as Mr. Cleveland points out, the four years term gives a president little more than a chance to inaugurate policies of state. Of their four sessions of congress in the term, two are so brief as to admit of little more than the passing of the necessary appropriation bills. The first comes at a time when the president is new in his office and has many incidental problems to consider. The last falls at a time when political consideration as to the forthcoming election tend to hamper legislation. "Neither of Mr. Cleveland's suggestions is a radical one."

IN THE AISLE.

She was a maid of honor
And I was his best man,
And in the aisle we waited while
The wedding march began!
My heart was full of pride,
For fairest of the fair ones there
Was that one at my side!

The people turned and whispered
And turned again to see,
And for a while there in the aisle
The gods were good to me!
I saw the maiden blushing,
We two outshone the rest,
I heard her sigh, my head was high,
And joy was in my breast.

She was maid of honor
And I was his best man,
And there my pride ignominiously died,
And there my shame began!
Her train was long and splendid,
And suddenly, somehow,
My feet and it got bleated—
And we are strangers now!

—S. E. Kiser.

NOTES OF INTEREST.

In 1816 the first savings bank was established in the United States. In 1820 there were ten banks of this class, with 8,635 depositors. In 1899 there were 942 savings banks, with 5,678,000 depositors and deposits to the amount of \$22,300,000,000. How many savings banks, how many depositors and what amount of deposits will there be in 1901?

A Mr. Miles Danlen, of Tennessee, weighs 1,000 pounds. Possibly no other nation can show up a man of equal weight.

The first Sunday school was established by Robert Halkes at Gloucester, England, in 1780. Now there are 310,000 Sunday schools in the United States, with 3,500,000 teachers and 9,000,000 pupils. A movement is on foot to employ paid teachers in the Sunday school. Halkes tried this experiment, but abandoned it for the simple reason that he found that love of children and of Christ was a greater incentive to teach than money.

OPINIONS OF WOMEN.

Nature is in earnest when she makes a woman. — Oliver Wendell Holmes.

What is civilization? I answer, the power of good woman. — Emerson.

A woman finds it a much easier task to do an evil than a virtuous deed. — Plautus.

Women are too imaginative and sensitive to have much logic. — Mme. Du Deffand.

Poets on women trust; for in their speech is death, hell in their smile. — Tasso.

The most beautiful object in the world, it will be allowed, is a beautiful woman. — Macaulay.

There are three things a wise man will not trust: the wind, the annals of an April day and a woman's slight-of-hand. — Southey.

A woman, the more curious she is about her face, is commonly the more careless about her house. — Ben Jonson.

Trust not a woman when she weeps, for it is her nature to weep when she wants her will. — Seneca.

Woman is a charming creature, who changes her heart as easily as she does her gloves. — Balzac.

A GIRL'S BEST COUNSELOR.

"Trust your father's judgment of your men friends rather than your own at first," writes Helen Watterson Moody to girls, in the Ladies' Home Journal. "The gay, witty, responsive young man who will probably most attract you, will not be the one who will be likely to have his serious consideration and respect. Talk over your men friends with your father, and see what healthy, unemotional, sane 'standards' he will set up for you. I really think if a girl could have but one counselor in her love affairs, it would better be her father than any one else. A man's mind is a great tonic to the somewhat diluted intellect of a girl in her first sentimental experience."

Pan-American Outlook.

The Big Exposition Promises to Exceed All Expectations.

Exhibits From All the States and Countries of the Western Hemisphere—More Than a Score of Great Buildings to Shelter the Displays.

The Pan-American Exposition at Buffalo during the summer of 1901 will be not only big, but beautiful. In many ways it will exceed every similar enterprise in the history of the world, and chief among its merits will be the fact that everything can be easily seen and comprehended. System and originality are conspicuous in every detail. The revised plan shows a plot comprising 350 acres. From north to south

the grounds are about a mile and a quarter from east to west half a mile. The grounds are situated in the northern part of Buffalo and are easily reached either direct or by transfer ticket by all the electric car lines constituting the city's perfect street railway system. On the northern side are the tracks of the New York Central Belt Line, to which the 20 steam railroads entering Buffalo will have access during the Exposition. The southern portion of the grounds is a part of the city of Buffalo and contains a lake of irregular shape more than half a mile long, indicated by letter H on the ground plan. This part of the Exposition plot is already very beautiful, the city of Buffalo having spent many thousands of dollars in planting shrubs and trees of many rare species and in producing landscape effects that give to the eye a beautiful vista from every point of view.

The main southern entrance of the Exposition is on Lincoln Parkway, indicated by letter A. At the left as you enter will be the beautiful Albright Art Gallery, built of white marble and costing upward of \$350,000. This is the gift of a citizen of Buffalo, Mr. J. J. Albright, and will be a permanent fireproof building for public use devoted to art. On the right is the beautiful new limestone and shell

er erected by the city of Buffalo. Crossing the bridge between the lake and the North Bay, the New York State building may be seen on the north bank of the lake. This is also of white marble, fireproof and a permanent structure. It will be devoted, after the Exposition, to the use of the Buffalo Historical Society.

Continuing up the slight grade across the bridge, we now come to the "Ap-proach" (B), where we get the first broad view of the wonderful group of buildings devoted to the various exhibit divisions of the Exposition.

It will be noted by reference to the ground plan that the buildings are grouped around a system of courts in the form of an inverted letter T. The transverse court, corresponding to the cross of the T, is the Esplanade, capable of accommodating 250,000 people. North of this, corresponding with the perpendicular of the T, are the Court of Fountains and the Plaza, which reach almost to the northern limit of the grounds. On either side of the Court of Fountains are the subordinate courts known as the Court of Presses and Court of Lilies. These several courts have a combined area of 33 acres, which is far more extensive than

any erected by the city of Buffalo. Crossing the bridge between the lake and the North Bay, the New York State building may be seen on the north bank of the lake. It will be noted by reference to the ground plan that the buildings are grouped around a system of courts in the form of an inverted letter T. The transverse court, corresponding to the cross of the T, is the Esplanade, capable of accommodating 250,000 people. North of this, corresponding with the perpendicular of the T, are the Court of Fountains and the Plaza, which reach almost to the northern limit of the grounds. On either side of the Court of Fountains are the subordinate courts known as the Court of Presses and Court of Lilies. These several courts have a combined area of 33 acres, which is far more extensive than

any erected by the city of Buffalo. Crossing the bridge between the lake and the North Bay, the New York State building may be seen on the north bank of the lake. This is also of white marble, fireproof and a permanent structure. It will be devoted, after the Exposition, to the use of the Buffalo Historical Society.

Continuing up the slight grade across the bridge, we now come to the "Ap-proach" (B), where we get the first broad view of the wonderful group of buildings devoted to the various exhibit divisions of the Exposition.

North of the Mall, on the right, is the Agriculture building and on the left the Electricity building. In the center is the Electric Tower. In the northeast corner of the grounds is the Stadium, with its large entrance building (Z). Deposited on the west side of the Plaza, is the large entrance to the Midway. On the north is the Propri-

ety, or monumental entrance, and beyond this the great building that recently found its location for the shelter of its extensive exhibits, and forming a part of this the splendid railway station. Two new buildings, one devoted to dairy products and the other to agricultural machinery, are being erected, but not shown in the plan. The live stock display is one of the Manufactures and Liberal Arts building. In the south-eastern part of the grounds are the State and Federal buildings, the six 25-story Indian exhibit, the Philippine, Ordnance and Forestry exhibits.

The exhibits to be made at the Pan-American Exposition embrace every line of human effort. They have been classified as follows: Electrical Machinery and Appliances; Fine Arts: Painting, Sculpture and Decorative; Graphic Arts: Typography, Lithography, Engraving and Bookbinding; Liberal Arts: Education, Engineering, Public Works, Hygiene and Sanitation, Constructive Architecture, Music and the Drama; Ethnology, Archaeology, Agriculture, Foods and Accessories, Agricultural Machinery and Implements, Dairy Products and Appliances, Horticulture, Viticulture, Floriculture, Live Stock, Horses, Poultry, Sheep, Swine, Poultry and Pet Stock; Forestry and Forest Products; Fisheries, Fish Products and Appliances; Minerals and Metallurgy; Machinery, Manufactures, Handicrafts, Vessels, Vehicles, Ordnance exhibits from states and countries of the western hemisphere.

One of the chief architectural features at the Pan-American Exposition will be the splendid Temple of Music. This will be the center for musical interests at the great All-American Exposition. Music lovers will naturally want their way to this building very soon after arrival upon the grounds, and both here and from the band stands in the great Esplanade and in the Plaza they will always find some

among the most fascinating industries. The production of gold throughout the world during the present century has steadily increased. The production in the United States in 1890 amounted to \$72,500,000, while that of the whole world is given at \$31,000,000, thus giving the United States the first position in production of gold of any country.

In the larger supply of gold the United States produces 22,300 tons annually, or more than one-half of the world's output. The United States and Mexico are the two greatest silver producing countries. In other mining productions, the commercial value of which is considerably greater than that of the precious metals, the countries of Pan-America also lead the world. During the last year the coal output of the United States reached the enormous amount of 225,000,000 tons. This, as compared with Great Britain's output of about 200,000,000 tons and Germany's 100,000,000 tons, makes the question of the future production of coal, considering the rapid increase in

America and the fact that European production has reached its limit and is already declining, especially noteworthy at this time. The Canadian output of coal and iron is an important factor in the world's supply of these metals. The advance of these industries in North America during the past decade has been phenomenal. The total production of the United States last year amounted in value to \$11,755,444 and of non-metallic substances to a total of \$901,872,031.

Nearly \$100,000,000 will be required to construct and equip the wonderful Midway at the Pan-American Exposition. The greatest care has been taken to prevent any approach toward the "fake" show, and the visitor may rest assured that he will not be subjected to fraud or extortion so long as he remains upon the Exposition grounds. It is difficult to single out any attraction in this section as more prominent or worthy than another, for all have their special merit and novelty.

The subject of the accompanying illustration, the Beautiful Orient, will represent life as it existed in the East before the advent of the modern world. Gaston Akorn, director of this exposition, is endeavoring to have entire representative characters to convey proper impressions of oriental customs and manners of living. It will have plenty of room in which to display the different salient features that would appeal in the strongest terms to people accustomed to the modern civilization. which is more than the entire population of the country at the time of the Centennial Exposition at Philadelphia. It is far more than the number living within the same distance of Chicago. The great Falls of Niagara constitute an important attraction to tourists, and this is the first time they are only half an hour's ride from the Exposition grounds, and there may be no more reason for the visit to the city of Buffalo and Niagara Falls. Near at hand also is the great summer school in the grove on Lake Chautauque, known as the Chautauque Assembly.

Buffalo has a population of 250,000, and this is the first great Exposition held in the east since the Centennial, 25 years ago. For the several reasons here noted it is expected that the attendance to the Pan-American Exposition will be very large and that the results will be very gratifying. The promotion of trade among all the states and nations of the western hemisphere and in the establishment of more cordial relations among all the people of the western world.

STEAM HEAT
It is probably the best heat for us humans—because its equable, constant, easily regulated. But whether you use calorific in that form or keep warm by means of the circulation of hot water or hot air through distributing pipes, we can keep things going even if something goes wrong. Steam heating plants installed and attended to; everything in the plumbing line made right.

APPEAL TO OUR WHITE FRIENDS.

We desire to dedicate our Washington-street Baptist church to the Lord, the first brick of which was laid by the late Rev. D. D. Sep. 25th, 1900. Now, to make this effort we are compelled to call on our white friends for assistance. We intend to send out agents to you as we cannot get along without your assistance. Please comply with our appeal and sign your name to the amount you give. Now, who will give the first dollar? These cards that will be sent out will be signed by James Owens. God loves a cheerful giver.

UNLUCKY YOUNG MAN.

WALTER FISHER GOT THE WORST OF IT ALL AROUND.

Walter Fisher and Leslie Hobson, brothers-in-law, were presented in the police court this morning on a charge of fighting. Fisher had a painful wound on his left cheek. The evidence showed that Fisher went to Hobson's, where he had been staying, after his clothes, and his wife wouldn't let him have them. He claims he made several trips, and the last time was using obscene language, and finally struck his wife in the back. His sister took it up and young Hobson himself, who had been disturbed in his slumbers, came out with a stick, and after ordering Fisher away, struck the latter with the stick on the put a hand in his pocket. Hobson was acquitted and Fisher was fined \$3 and costs and his wife was advised to give him his clothes.

ATTEMPTS TO CRUCIFY HESRELY.

Sublime, Tex., Jan. 15.—Mrs. Nel-mann, living a few miles east of town, attempted to crucify herself by driving nails through her hands and feet. Large spots of blood were found on the wall, where, with one arm outstretched, she leaned and tried to drive the nails in the wall. Although her feet and hands ached to more than twice their natural size and had turned blue, she would run about the yard kneeling and kissing the ground and carrying a bucket of water about, sprinkling.

MARRIED IN MAYFIELD.

Reports reached the city today that Mr. L. B. Black, a well known tobacco man of Mayfield, was secretly married in the county near his home, a little time ago to Miss Ellen Davernport. The groom is not a young man by any means, and managed to keep the wedding a secret until yesterday. He is well known in Paducah. His bride had made her home with his family for a number of years.

NOT ASKED AGAIN.

Pity of the Michigan Politician Was Not Very Comprehensive.

M. H. Chittenden, the Michigan politician who died recently, dearly loved a joke. His own initials, "M. H. C.," he always inserted, stood for Methodist Episcopal church, which organization, could it have occurred him, would have acquired a very lively member.

"Mart," as Mr. Chittenden was familiarly called, partially lost his hearing some years ago and communication with him thereafter was one of the few joys. Being the agent of the Standard oil company for a large territory, he traveled considerably, and on a certain occasion fell in with a couple of friends at Hilldale, who invited him to go with them to dinner at the house of a resident acquaintance.

One of them quietly said to the host: "Mr. Chittenden is an exceedingly polite man and likes to have the food blessed before partaking. You must invite him to ask the blessing."

Accordingly, when all were seated, followed upon the company, while the host turned to Mr. Chittenden with "Will you ask the blessing?"

"I'll try," he answered, with his usual quick, nervous gesture, as in a hesitating attitude he responded in a tone more decided than usual: "I've grown so all-fired deaf lately that if you'll have to say it devilish loud."

A roar from the two friends disclosed to Chittenden and the astonished host that they had been made the victim of a practical joke. But "Chit" enjoyed it amazingly when he understood what had happened.

Colonel Cyrus King Drew, who died recently in New Orleans, La., was for many years a prominent resident of Evanville.
